

Endocrine Drug List

Pituitary-Hypothalamic Drugs

- arginine vasopressin
- BROMOCRIPTINE
- cabergoline
- corticotropin (ACTH)
- cosyntropin (ACTH 1-24)
- corticotropin releasing hormone (CRH)
- demeclocycline
- DESMOPRESSIN ACETATE
- ganirelix
- GONADOTROPIN RELEASING HORMONE (gonadorelin)
- goserelin
- GROWTH HORMONE
- growth hormone-releasing hormone and releasing peptides
- human chorionic gonadotropin (hCG)
- human menopausal gonadotropins (hMG)
- levodopa
- LEUPROLIDE
- nafarelin
- OCTREOTIDE (synthetic somatostatin octapeptide)
- OXYTOCIN
- pegvisomant
- pergolide
- prolactin
- recombinant human growth hormone (somatropin, somatorem)
- somatomedin C (IGF-1)
- urofollitropin (FSH)

Adrenocorticoids

- aldosterone
- aminoglutethimide
- androstenedione
- angiotensin (I, II & III)
- beclomethasone
- betamethasone
- dehydroepiandrosterone (DHEA)
- DEXAMETHASONE
- FLUDROCORTISONE
- fluocinonide
- HYDROCORTISONE (cortisol)
- ketoconazole
- METYRAPONE
- mifepristone (RU486)
- mitotane
- PREDNISOLONE
- triamcinolone
- trilostane

Gonadal Hormones

- anastrozole
- bicalutamide

- CLOMIPHENE
- CONJUGATED ESTROGENS (Premarin, estrone, equilin)
- cyproterone acetate
- danazol
- desogestrol
- DIETHYLSTILBESTROL
- drospirinone
- dutasteride
- ESTRADIOL (in salts-benzoate, valerate, cypionate)
- ETHINYL ESTRADIOL
- ethynodiol
- exemestane
- fadrozole
- faslodex
- FINASTERIDE
- fluoxymesterone
- FLUTAMIDE
- formestane
- ketoconazole
- letrozole
- MEDROXYPROGESTERONE
- megestrol acetate
- methyltestosterone
- mestranol
- methyltestosterone
- mifepristone (RU 486)
- nandrolone
- NORETHINDRONE
- norgestimate
- I-NORGESTREL
- OXANDROLONE
- oxymethalone
- phytoestrogens
- raloxifene
- spironolactone
- TAMOXIFEN
- TESTOSTERONE-salts (propionate, heptanoate, cypionate)

Thyroid/Parathyroid Drugs

- alendronate, etidronate, pamidronate, risedronate
- calcium carbonate
- calcitonin
- calcitriol (1,25-dihydroxy Vitamin D3)
- cinacalcet
- cholecalciferol
- dihydrotachysterol
- ergocalciferol
- fluoborate
- fluoride
- iocetamic acid
- iopanoic acid
- LEVOTHYROXINE (T4)
- liothyronine sodium (triiodothyronine (T3))
- liotrix (T4 plus T3)
- lithium
- methimazole
- mithramycin (plicamicin)
- parathyroid hormone
- POTASSIUM IODIDE
- potassium perchlorate
- PROPYLTHIOURACIL
- radioactive iodide
- teriperatide (PTH 1-34)
- thiocyanate
- thyrotropin stimulating hormone (TRH)
- zoledronic acid

Insulins/Oral Hypoglycemic Drugs

- acarbose
- ACETOHEXAMIDE
- aspart insulin
- chlorpropramide
- EXTENDED ZINC INSULIN (ultra-lente)
- glimipiride
- GLIPIZIDE
- glucagon
- GLYBURIDE
- Human insulin types: lente insulin, NPH insulin, regular insulin. ultralente insulin)
- glargine insulin
- LIS PRO INSULIN (fast acting)
- METFORMIN
- miglitol
- nateglinide
- pioglitazone
- repaglinide
- rosiglitazone
- somatostatin
- tolbutamide

Uterine Drugs

- carboprost
- DINOSPROSTONE
- dinoprostone
- ERGONOVINE MALEATE
- MAGNESIUM SULFATE •
- misoprostol
- OXYTOCIN
- PROSTAGLANDIN E2
- ritodrine
- terbutaline
